

## CYCLING AT LOWTHER

In a busy world, days out bring precious opportunities to spend time with family and friends. With its castle ruins, gardens, exhibition and huge adventure playground, Lowther Castle has plenty to offer young and old.

Now, in tandem with Arragon's Cycles of Penrith, Lowther Castle is offering cycle-hire - so visitors can add even more to their day out by hiring bikes - and going 'Lowther alfresco'.

Arragon's Cycles is a well-known independent family business and has been part of the Penrith landscape for over 50 years. It is Shimano Service Centre Accredited and in 2017, was a regional winner of Britain's Best Bike Shop. The team is highly experienced and well-positioned to equip you with the bike best suited for your adventure.

## CYCLING & CYCLE-HIRE AT LOWTHER CASTLE

### LOWTHER ESTATE TRAILS

The network of trails that runs throughout the Lowther Estate embraces all that is beautiful in this remarkable Lake District valley. Cycle-paths snake through the ancient woodland and pastures of Lowther Park, following the stunning contours of the landscape.

Trails have been created for full family enjoyment and are colour-graded in accordance with national cycling standards.

There are signposts at every junction, with destinations and length in miles clearly marked. We have also signposted some circular routes that go beyond the estate boundaries.
